

# HARBINGER PRIMARY SCHOOL

## Educational Visits Policy

Policy Version & Issue Date	Version: 1 September 2021
Person responsible for review	Nimesha Nagahawatte
Date approved by Governors	September 2021
Date of next review:	December 2023

## **Aims of policy and henceforth, all educational visits**

Harbinger Primary School wholly complies with the DFE's "Health and Safety of Pupils on Educational Visits". Our overall aims are that all visits from school should:

- Be safe
- Be educational: promotes and enhances learning
- Give opportunity
- Be enjoyable

## **Rationale**

Well planned and executed educational visits provide our pupils with valuable experiences which enhance their learning at school. Providing a variety of 'real-life' opportunities for our children enables them to achieve a fuller understanding of the world around them through direct experience. Purposeful educational visits will have a clearly defined educational objective and will provide stimulus and support to work being covered as part of the school's curriculum. It may be that a visit provides an effective stimulus at the start of a unit of work. Alternatively, teachers may decide to use an educational visit at any time during a project to enhance and support the curriculum. Wherever or whatever the venue, teachers should ensure that the educational benefits to the children are maximised. As a minimum we expect children to have two trips per term, one of which should take them out of their local area (dependent on Covid restrictions).

## **Planning educational visits - factors to consider:**

The organisation of an educational visit is crucial to its success. With rigorous planning, organisation and control, a visit should provide a rich, learning experience for the pupils. Whether the visit is to a local park, museum, swimming pool, or includes a residential stay, it is essential that careful planning takes place. This involves considering the dangers and difficulties which may arise and making plans to avoid them. The following guidelines support the planning and implementation of educational visits organised by the staff of Harbinger Primary School.

## **Parents – information and consent**

Parents should be given information about the purpose and details of the visit at least two weeks in advance. Parents need to be aware that the teachers on the visit will be acting in their place – 'in loco parentis' – and will be exercising the same care that a prudent parent would. For residential trips, parents will be invited to a briefing session. Special arrangements may be necessary for parents for whom English is a second language.

## **Parental consent**

Routine visits in the locality of the school are covered by the parental consent on the Admissions Form. Harbinger Primary School will seek consent for all other visits. A parental consent form must be returned for each child in the group. In special circumstances then verbal consent maybe accepted. If parents wish to withhold consent, they will be invited to meet with the Deputy Headteacher or Head of School to discuss their concerns. If consent is withheld, the pupil will not be taken on the visit but the curricular aims of the visit will be delivered to the pupil in some other way, wherever possible. If the parents give a conditional consent, the Head of School will need to consider whether the child may be taken on the visit or not.

## **Risk Assessments**

A risk assessment will be carried out at least two weeks in advance of the visit to identify hazards. The risk assessment will need to consider who may be affected by any hazards identified and then what steps can be taken to reduce the risks to an acceptable level. The risk assessment should also think through "Plan B" scenarios. Risk Assessment forms and the Educational Visits Checklist are available from the 'All Staff' Team, in the 'Educational Visits' Folder and are also attached to this policy in Appendices B and C. The Risk Assessment should be discussed with and authorised by the Head of School

in advance of the day of the trip. The Head of School/Executive Headteacher reserves the right to cancel a trip even on the actual day, if a risk assessment has not been discussed and authorised. It should be signed by the lead adult attending the trip and submitted to Head of School 2 weeks in advance.

### **First Aid**

First Aid provision should be considered when assessing the risks of the visit. For all trips, a qualified first aider should attend the trip. This decision will be informed by the risk assessment undertaken. First aid kits must be taken on all visits. If the visit involves splitting into groups, a kit must be taken for each group.

### **Staffing Ratios**

It is important to have a sufficient ratio of adult supervisors to pupils. The following ratio of adults to children is recommended:

Nursery and Early Years 1:3

Key Stage One 1:6

Key Stage Two 1:10

In practice, the ratio should be determined by factors such as type of activity, any SEN or medical needs, experience of the staff, venue, transport and weather conditions. Whatever the length and nature of the visit, regular head counting of pupils must take place. The Visit Leader should establish rendezvous points and tell adults and pupils what to do if they become separated from the party.

### **Use of public transport**

An aspect of a trip carrying the highest level of risk is the use of public transport. The Visit Leader must exercise extreme care when the children are getting on and off public transport. It is important to remember that safety is paramount, time is not. It is better to return to school safely but a little late, than to rush and something happens.

We expect children in the Early Years and Key Stage 1 to wear high viz vests over their coats for the duration of any travelling. If you are travelling with pupils or staff who require a wheelchair, make sure that you make arrangements in advance with Transport for London, for ramps.

Before boarding public transport, the Visit Leader must line the group up. A head count must be undertaken. All group leaders need to communicate with the Visit Leader that they are ready to board the next bus/train that comes along. Once the transport arrives, the Visit Leader must remain on the platform/pavement until all groups have boarded and each group leader has indicated that they are all on safely. Only then, will the Visit Leader board themselves. For trains, the Visit Leader may need to 'prep' the platform staff. For Buses, the Visit Leader may need to prep the driver. Failure to exercise this level of care must be reported to the headteacher and may result in disciplinary action.

### **Preparing Pupils**

Providing information and guidance to pupils is an important part of preparing for a school visit. Pupils should have a clear understanding about what is expected of them and what the visit will entail. Pupils must understand what standard of behaviour is expected and why rules must be followed. Lack of control and discipline can be a major contributory factor when accidents occur. Pupils should also be told about any potential dangers and how they should act to ensure their own and other's safety. Pupils should be involved in planning, implementing and evaluating their own curricular work and have opportunities to take different roles within an activity. This could include considering any health and safety issues. If there is the possibility that a pupil may be excluded from the visit due to behaviour issues, a meeting must be arranged with the Head of School/Executive Headteacher in advance of the risk assessment being submitted to discuss concerns and agree what action is to be taken. Some trips may require 'outdoor/special clothing'.

### **Pupils with special educational and medical needs**

The Head of School will not exclude pupils with special educational or medical needs from school visits. Every effort will be made to support them whilst maintaining the safety of everyone on the visit. Special attention will be given to appropriate supervision ratios and additional safety measures which may need to be addressed at the planning stage.

### **Taking photographs/videos**

The Class Teacher must ensure they have parental consent before taking a child's photo. If there is a child(ren) who does not have permission to be photographed, all staff should be made aware and the child(ren) must not be included in individual or group photos.

Staff must use a school-owned device to take photos i.e. a school tablet. Staff should avoid using personal devices/mobile phones to take photos. Please speak to SLT if you require a device to take photos on your trip. **Types of Visits**

### **Adventurous Activities**

For more adventurous activities, the school will not be the lead but work under the direction of the qualified body responsible for these activities. Pupils should be assessed to ensure that they are capable of undertaking the proposed activities. During the visit, they should not be coerced into activities they fear. Pupils whose behaviour is such that the Visit Leader is concerned for their or others' safety, should be withdrawn from the activity.

### **Residential Trips**

Residential trips will be planned well in advance and arrangements will be overseen by the Deputy Headteacher and Head of School. Parents will be invited to a briefing session to discuss the details of the trip and to meet the staff attending. The Visit Leader should be an experienced, senior member of staff. Residential trips must be approved by the Governing Body and by the LEA via the EVOLVE system. Approval of Health and Safety will be arranged by the Deputy Headteacher and Head of School.

### **Coastal visits**

Group leaders and other teachers should be aware that many of the incidents affecting school children have occurred by or in the sea. There are dangers on the coast quite apart from those incurred in swimming. Swimming and paddling in the sea or other natural waters are potentially dangerous activities for a school group. Swimming in the sea on a coastal visit will not be allowed. Paddling will only be allowed as part of a supervised activity and only in recognised bathing areas which have official surveillance. Pupils should always be in sight of their teachers. One teacher should always stay out of the water for better surveillance.

### **Water Margin Activities**

Where pupils might participate in learning activities near or in water, such as a walk along the riverbank, collecting samples in ponds or stream or paddling in shallow water, then the guidance contained in the [RoSPA 'Group Safety at Water Margins'](#) will be followed.

### **Farm visits**

Harbinger Primary School recognises that farms can be dangerous even for the people who work there. Taking children to a farm will be very carefully planned. The risks to be assessed include those arising from the misuse of farm machinery and the hazards associated with E coli food poisoning and other infections. The proposed farm will be checked to ensure that it is well managed, that it has a good reputation for safety standards and animal welfare and that it maintains good washing facilities, clean grounds and public areas. An exploratory pre-visit must be carried out pre writing the risk assessment.

## **Roles and Responsibilities**

### **The Governing Body**

The Governing Body will approve the Educational Visits policy and will ensure it is reviewed annually. The Governing Body will approve residential visits.

### **Executive Headteacher/Head of School/Deputy Headteacher**

Rebecca Abrahams, the Executive Headteacher, will ensure a suitable Educational Visits Co-ordinator is appointed. The Headteacher will ensure suitable Visit Leaders are appointed. The Head of School will sign off all Risk Assessments. The Deputy Headteacher will ensure the documentation is uploaded to the EVOLVE system.

### **Visit Leader**

There should always be a named Visit Leader who is responsible overall for the supervision of the visit and recorded on the risk assessment. This will usually be the Class Teacher or Senior Leader. The Visit Leader is responsible for ensuring a pre-visit is carried out and that a Risk Assessment is completed and approved by the Head of School at least two weeks in advance of the visit. The Risk Assessment will include the ratio of adult to children supervision and the number of first aiders or appointed persons needed. Visit Leaders are asked to outline how the children will be grouped and with whom at the point that they are seeking authorisation for the Risk Assessment. The Visit Leader will brief all staff and helpers involved in the visit and they will all sign the back of the Risk Assessment. The Visit Leader is responsible for ensuring the mobile phone, first aid kit and pupil medication are taken on the visit.

### **Other teachers and staff involved in a visit**

Teachers and staff on school-led visits act as employees of the LEA and will, therefore, be acting in the course of their normal employment during their normal hours. They will be acting under an agreement with the Executive Headteacher/Head of School and Governors if some of their time on the visit falls outside normal hours.

### **Parent Helpers**

Teachers are encouraged to take Parent helpers on Educational Visits (dependent on Covid restrictions). If parents are attending, they will be asked to attend a briefing with the Visit Leader before the visit when they will sign the Risk Assessment and be given a written list of the children in their group. Visit leaders need to notify the office and Head of School of who the parent helpers are at the point that the risk assessment is being submitted for authorisation. Those helpers who are not DBS checked will not be alone with children and must be guided by school staff at all times. Helpers should be paired with a member of staff. Only school staff should take children to the toilets.

### **For more information regarding Educational Visits please see:**

(1) In the 'All Staff' Team containing:

- The Educational Visits Policy
- Risk Assessment and other forms such as the Green Cross Code
- DFE's "Health and Safety of Pupils on Educational Visit"

(2) The Educational Visits Policy will be shared during INSET. A copy is kept in the School Office.

## Appendix B:

### Key steps to ensure a successful trip for a Visit Leader

#### **At the start of each term**

- Plan where you would like to take the children when you are finalising your medium term planning.
- Contact the venue of choice to check availability.
- If there is availability, make a tentative booking pending authorisation from the Head of School.
- If there is a cost for entrance tickets and/or travel, complete a purchase order with the office and submit to the Head of School to get authorisation for the booking.
- Once authorisation received, make booking.

#### **A month before going on the trip**

- Write to the parents and carers of the children in your class informing them of the visit that you have planned, let them know the educational objective, notify them of any cost to be incurred and invite a voluntary contribution up to the amount by a certain date.
- Undertake a visit to the venue to inform your risk assessment. Even if you have been there before this is important particularly if you are taking public transport. This is because of issues such as closed stations, diversions, closed pavements due to road works etc. Also, if you are anticipating being out for the whole day, you will want to know how many children need a school packed lunch and how many will bring their own. You will also need to include First Aider(s) with you.
- Draft the risk assessment, taking time to decide how many adults you require and submit the Risk Assessment for approval from the headteacher. You may find that grouping the children now helps you to anticipate the need for more staff, so use of Appendix C at this stage could be helpful.

- Indicate on the risk assessment how many adults are school staff and how many are parents.
- Inform the office of the parents who would be supporting the trip.
- Plan a meeting with the parents to talk them through the trip and what you need them to do.
- Discuss the trip with the children. Use Google Maps, for example, to show them where they will be going. Involve them in preparing for the trip. They could make a leaflet. They could do their own risk assessment....
- At least 2 weeks in advance, inform the Kitchen Team that you will be going on a trip and how many packed lunches you will need.
- Apply for travel costs.

**On the day before the trip:**

- Check that all of your adults can still make the trip.
- Check Transport for London's website for any last minute travel arrangement updates.
- Make sure you have enough First Aid bags.
- Make sure you have a sheet with all of the groupings, mobile numbers etc. and give a copy to the Office (See Appendix C for an example.)
- If you have any children who require daily medication, make sure they have enough in school to take on the trip.

**On the day of the trip**

- Make sure everyone has enough battery on their phones for the day.
- Adhere carefully to the risk assessment and seek to enjoy the day!

**Appendix C:**

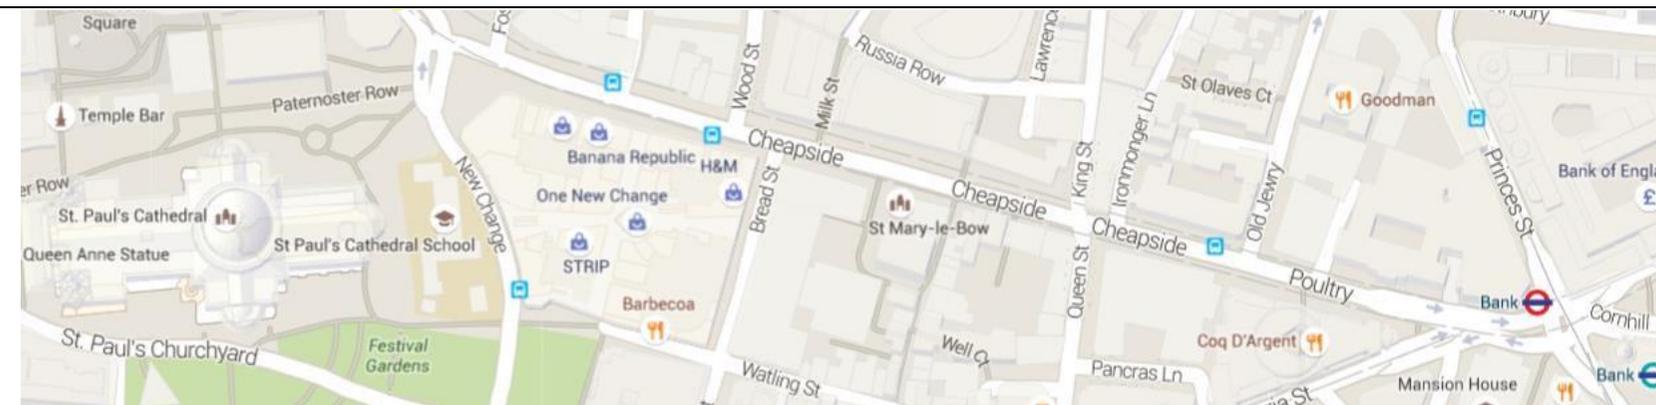

**Trip Organiser**

**Date:**

**School: 0207 987 1924**

**Route to ....**

*(Add map below with group lists and adult mobile phone numbers; give copy to all adults, Head of School and office)*

**Notes:**

- Children will go to the toilets before we leave school, at the cathedral and before we return.
- The guided tour is from 10:30am.
- We will sit inside the crypt to eat lunch
- Jude's dad will come at lunchtime for Jude's medication

We will leave school by 9:30am;  
 Walk to Island Gardens DLR;  
 Take DLR to Bank;  
 Exit Bank Station at exit 1;  
 Walk down Poultry/Cheapside to St Paul's Cathedral

<u>Adult name</u> <u>Adult's contact number</u>	<u>Adult name</u> <u>Adult's contact number</u>
