

## Design and Technology Skills Progression Map

	<p><b>By the end of Early Years:</b></p>	<p><b>Year 1-</b>  <b>Structures- Constructing a Windmill</b>  <b>Mechanisms- Moving Storybook</b>  <b>Food- Fruit and Vegetables</b>  <i>Year 1/2-</i>  <i>Food- Fruit and Vegetables</i>  <i>Mechanisms- Moving Storybook</i>  <i>Textiles- Puppets</i></p> <p><b>Year 2-</b>  <b>Textiles- Pouches</b>  <b>Structures- Baby Bear’s Chair</b>  <b>Food- Balanced Diet</b></p> <p>By the end of Key Stage 1, pupils will have had the opportunity to:</p>	<p><b>Year 3-</b>  <b>Mechanical Systems: Pneumatic Toys</b>  <b>Food: Eating Seasonally</b>  <b>Digital World: Electronic Charms</b></p> <p><b>Year 4-</b>  <b>Electrical Systems: Torches</b>  <b>Structure: Pavilions</b>  <b>Textiles- Fastenings</b></p> <p>By the end of Lower Key Stage 2, pupils will have had the opportunity to:</p>	<p><b>Year 5-</b>  <b>Electrical Systems- Greetings Cards</b>  <b>Mechanical Systems- Pop up Books</b>  <b>Digital World- Monitoring Devices</b></p> <p><b>Year 6-</b>  <b>Art Project- Replaces Textiles this year</b>  <b>Food- Come Dine with Me</b>  <b>Structure- Playgrounds</b></p> <p>By the end of Upper Key Stage 2, pupils will have had the opportunity to:</p>
<p><b>Structures</b></p>	<p><b>Physical Development</b></p> <ul style="list-style-type: none"> <li>• Progress towards a more fluent style of moving, with developing control and grace.</li> <li>• Develop their small motor skills so that they can use a range of tools competently, safely and confidently.</li> <li>• Choose the right resources to carry out their own plan</li> </ul>	<ul style="list-style-type: none"> <li>• Generating and communicating ideas using sketching and modelling</li> <li>• Learning about different types of structures, found in the natural world and in everyday objects</li> <li>• Making a structure according to design criteria</li> <li>• Creating joints and structures from paper/card and tape</li> <li>• Exploring the features of structures</li> <li>• Comparing the stability of different shapes</li> <li>• Testing the strength of own structures</li> <li>• Identifying the weakest part of a structure</li> </ul>	<ul style="list-style-type: none"> <li>• Designing a stable pavilion structure that is aesthetically pleasing and selecting materials to create a desired effect</li> <li>• Building frame structures designed to support weight</li> <li>• Creating a range of different shaped frame structures</li> <li>• Making a variety of free standing frame structures of different shapes and sizes</li> <li>• Selecting appropriate materials to build a strong structure and for the cladding</li> <li>• Reinforcing corners to strengthen a structure</li> <li>• Creating a design in accordance with a plan</li> </ul>	<ul style="list-style-type: none"> <li>• Designing a playground featuring a variety of different structures, giving careful consideration to how the structures will be used, considering effective and ineffective designs</li> <li>• Building a range of play apparatus structures drawing upon new and prior knowledge of structures</li> <li>• Measuring, marking and cutting wood to create a range of structures</li> <li>• Using a range of materials to reinforce and add decoration to structures</li> <li>• Improving a design plan based on peer evaluation</li> <li>• Testing and adapting a design to improve it as it is developed</li> </ul>

<p><b>Personal, Social and Emotional Development</b></p> <ul style="list-style-type: none"> <li>Select and use activities and resources, with help when needed. This helps them to achieve a goal they have chosen or one which is suggested to them</li> </ul>	<p><b>Expressive Arts and Design</b></p> <ul style="list-style-type: none"> <li>Explore, use and refine a variety of artistic effects to express their ideas and feelings.</li> <li>Return to and build on their previous learning,</li> </ul>	<ul style="list-style-type: none"> <li>Evaluating the strength, stiffness and stability of own structure</li> <li>identifying natural and man-made structures</li> <li>Identifying when a structure is more or less stable than another</li> <li>Knowing that shapes and structures with wide, flat bases or legs are the most stable</li> <li>Understanding that the shape of a structure affects its strength</li> <li>Using the vocabulary: strength, stiffness and stability</li> <li>Knowing that materials can be manipulated to improve strength and stiffness</li> <li>Building a strong and stiff structure by folding paper</li> </ul>	<ul style="list-style-type: none"> <li>Learning to create different textural effects with materials</li> <li>Evaluating structures made by the class</li> <li>Describing what characteristics of a design and construction made it the most effective</li> <li>Considering effective and ineffective designs</li> <li>Learning what pavilions are and their purpose</li> <li>Building on prior knowledge of net structures and broadening knowledge of frame structures</li> <li>Learning that architects consider light, shadow and patterns when designing</li> <li>Implementing frame and shell structure knowledge</li> <li>Considering effective and ineffective designs</li> </ul>	<ul style="list-style-type: none"> <li>Identifying what makes a successful structure</li> </ul> <p>Knowing that structures can be strengthened by manipulating materials and shapes</p> <ul style="list-style-type: none"> <li>Identifying the shell structure in everyday life (cars, aeroplanes, tins, cans)</li> <li>Understanding man made and natural structures</li> </ul>
		<p><b>Mechanisms/ Mechanical systems</b></p>		<ul style="list-style-type: none"> <li>Creating a class design criteria</li> <li>Design for a specific audience in accordance with a design criteria</li> <li>Selecting a suitable linkage system to produce the desired motions</li> <li>Designing a wheel Selecting appropriate materials based on their properties</li> </ul>

	<p>refining ideas and developing their ability to represent them.</p> <ul style="list-style-type: none"> <li>• Create collaboratively, sharing ideas, resources and skills.</li> </ul>	<ul style="list-style-type: none"> <li>• Making linkages using card for levers and split pins for pivots</li> <li>• Experimenting with linkages adjusting the widths, lengths and thicknesses of card used</li> <li>• Cutting and assembling components neatly</li> <li>• Selecting materials according to their characteristics</li> <li>• Following a design brief</li> <li>• Evaluating own designs against design criteria</li> <li>• Using peer feedback to modify a final design</li> <li>• Evaluating different designs</li> <li>• Testing and adapting a design</li> <li>• Learning that mechanisms are a collection of moving parts that work together in a machine</li> <li>• Learning that there is an input and output in a mechanism</li> <li>• Identifying mechanisms in everyday objects</li> <li>• Learning that a lever is something that turns on a pivot</li> </ul>	<ul style="list-style-type: none"> <li>• Making a model based on a chosen design</li> <li>• Evaluating the speed of a final product based on: the effect of shape on speed and the accuracy of workmanship on performance</li> <li>• Learning that products change and evolve over time</li> <li>• Learning that all moving things have kinetic energy</li> <li>• Understanding that kinetic energy is the energy that something (object person) has by being in motion</li> </ul>	<ul style="list-style-type: none"> <li>• Making mechanisms and/or structures using sliders, pivots and folds to produce movement</li> <li>• Using layers and spacers to hide the workings of mechanical parts for an aesthetically pleasing result</li> <li>• Evaluating the work of others and receiving feedback on own work</li> <li>• Suggesting points for improvement</li> <li>• Knowing that an input is the motion used to start a mechanism</li> <li>• Knowing that output is the motion that happens as a result of starting the input</li> <li>• Knowing that mechanisms control movement</li> <li>• Describing mechanisms that can be used to change one kind of motion into another</li> </ul>
	<p><b>Understanding the World</b></p> <ul style="list-style-type: none"> <li>• Explore how things work</li> </ul>			

		<ul style="list-style-type: none"> <li>• Learning that a linkage is a system of levers that are connected by pivots</li> <li>• Exploring wheel mechanisms</li> <li>• Learning how axels help wheels to move a vehicle</li> </ul>		
<b>Electrical systems (KS2 only)</b>		<p>N/A</p>	<ul style="list-style-type: none"> <li>• Designing a torch, giving consideration to the target audience and creating both design and success criteria focusing on features of individual design ideas</li> <li>• Making a torch with a working electrical circuit and switch</li> <li>• Using appropriate equipment to cut and attach materials</li> <li>• Assembling a torch according to the design and success criteria</li> <li>• Evaluating electrical products</li> <li>• Testing and evaluating the success of a final product and taking inspiration from the work of peers</li> <li>• Learning how electrical items work</li> <li>• Identifying electrical products</li> <li>• Learning what electrical conductors and insulators are</li> <li>• Understanding that a battery contains stored electricity and can be used to power products</li> <li>• Identifying the features of a torch</li> </ul>	<ul style="list-style-type: none"> <li>• Designing an electronic greetings card with a copper track circuit and components</li> <li>• Creating a labelled circuit diagram showing positive and negative parts in relation to the LED and the battery</li> <li>• Writing design criteria for an electronic greeting card</li> <li>• Compiling a moodboard relevant to my chosen theme, purpose and recipient</li> <li>• Making a functional series circuit</li> <li>• Creating an electronics greeting card, referring to a design criteria</li> <li>• Mapping out where different components of the circuit will go</li> <li>• Evaluating a peer's product against design criteria and suggesting modifications that could be made to improve the reliability or aesthetics of it or to incorporate another type of circuit component</li> </ul>

			<ul style="list-style-type: none"><li>• Understanding how a torch works</li><li>• Articulating the positives and negatives about different torches</li></ul>	<ul style="list-style-type: none"><li>• Stating what Sir Rowland Hill invented and why it was important for greeting cards</li><li>• Analysing and evaluating a range of existing greeting cards</li><li>• Learning the key components used to create a functioning circuit</li><li>• Learning that copper is a conductor and can be used as part of a circuit</li><li>• Understanding that breaks in a circuit will stop it from working</li><li>• Explaining how a series circuit will work in my card</li><li>• Identifying the negative and positive leg of an LED</li><li>• Drawing a series circuit diagram and symbols</li></ul>
--	--	--	--	---

<p><b>Cooking and nutrition</b></p>		<ul style="list-style-type: none"> <li>• Designing a healthy wrap based on a food combination which work well together</li> <li>• Slicing food safely using the bridge or claw grip</li> <li>• Constructing a wrap that meets a design brief</li> <li>• Describing the taste, texture and smell of fruit and vegetables</li> <li>• Taste testing food combinations and final products</li> <li>• Describing the information that should be included on a label</li> <li>• Evaluating which grip was most effective</li> <li>• Understanding what makes a balanced diet</li> <li>• Knowing where to find the nutritional information on packaging</li> <li>• Knowing the five food groups</li> </ul>	<ul style="list-style-type: none"> <li>• Creating a healthy and nutritious recipe for a savoury tart using seasonal ingredients, considering the taste, texture, smell and appearance of the dish</li> <li>• Knowing how to prepare themselves and a work space to cook safely in, learning the basic rules to avoid food contamination</li> <li>• Following the instructions within a recipe</li> <li>• Establishing and using design criteria to help test and review dishes</li> <li>• Describing the benefits of seasonal fruits and vegetables and the impact on the environment</li> <li>• Suggesting points for improvement when making a seasonal tart</li> <li>• Learning that climate affects food growth</li> <li>• Working with cooking equipment safely and hygienically</li> <li>• Learning that imported foods travel from far away and this can negatively impact the environment</li> <li>• Learning that vegetables and fruit grow in certain seasons</li> <li>• Learning that each fruit and vegetable gives us nutritional benefits</li> <li>• Learning to use, store and clean a knife safely</li> </ul>	<ul style="list-style-type: none"> <li>• Writing a recipe, explaining the key steps, method and ingredients</li> <li>• Including facts and drawings from research undertaken</li> <li>• Following a recipe, including using the correct quantities of each ingredient</li> <li>• Adapting a recipe based on research</li> <li>• Working to a given timescale</li> <li>• Working safely and hygienically with independence</li> <li>• Evaluating a recipe, considering: taste, smell, texture and origin of the food group</li> <li>• Taste testing and scoring final products</li> <li>• Suggesting and writing up points of improvements in productions</li> <li>• Evaluating health and safety in production to minimise cross contamination</li> </ul> <p>Learning how to research a recipe by ingredient</p> <ul style="list-style-type: none"> <li>• Recording the relevant ingredients and equipment needed for a recipe</li> <li>• Understanding the combinations of food that will complement one another</li> </ul>
-------------------------------------	--	---	---	--

				<ul style="list-style-type: none"> <li>• Understanding where food comes from, describing the process of 'Farm to Fork' for a given ingredient</li> </ul>
Textiles		<ul style="list-style-type: none"> <li>• Designing a pouch</li> <li>• Selecting and cutting fabrics for sewing</li> <li>• Decorating a pouch using fabric glue or running stitch</li> <li>• Troubleshooting scenarios posed by teacher</li> <li>• Evaluating the quality of the stitching on others' work</li> <li>• Discussing as a class, the success of their stitching against the success criteria</li> <li>• Identifying aspects of their peers' work that they particularly like and why</li> <li>• Joining items using fabric glue or stitching Identifying benefits of these techniques</li> <li>• Threading a needle</li> </ul>	<ul style="list-style-type: none"> <li>• Writing design criteria for a product, articulating decisions made</li> <li>• Designing a personalised Book sleeve</li> </ul> <p>Making and testing a paper template with accuracy and in keeping with the design criteria</p> <ul style="list-style-type: none"> <li>• Measuring, marking and cutting fabric using a paper template</li> <li>• Selecting a stitch style to join fabric, working neatly sewing small, neat stitches</li> <li>• Incorporating fastening to a design</li> <li>• Testing and evaluating an end product against the original design criteria</li> <li>• Deciding how many of the criteria should be met for the product to be considered successful</li> </ul>	<ul style="list-style-type: none"> <li>• Designing a product in accordance to specification linked to set of design criteria to fit a specific theme</li> <li>• Annotating designs</li> <li>• Using a template when pinning panels onto fabric</li> <li>• Marking and cutting fabric accurately, in accordance with a design</li> <li>• Sewing a strong running stitch, making small, neat stitches and following the edge</li> <li>• Tying strong knots</li> <li>• Decorating a product -attaching objects using thread and adding a secure fastening</li> <li>• Evaluating work continually as it is created</li> </ul>

		<ul style="list-style-type: none"> <li>• Sewing running stitch, with evenly spaced, neat, even stitches to join fabric</li> <li>• Neatly pinning and cutting fabric using a template</li> </ul>	<ul style="list-style-type: none"> <li>• Suggesting modifications for improvement</li> <li>• Understanding that there are different types of fastenings and what they are</li> <li>• Articulating the benefits and disadvantages of different fastening types</li> </ul>	<ul style="list-style-type: none"> <li>• Learning different decorative stitches</li> <li>• Application and outcome of the individual technique</li> <li>• Sewing accurately with even regularity of stitches</li> </ul>
<p>Digital World (KS2 only)</p>	<p><b>Fine Motor Skills</b></p> <ul style="list-style-type: none"> <li>• Use a range of small tools, including scissors, paintbrushes and cutlery</li> </ul> <p><b>Creating with Materials</b></p> <ul style="list-style-type: none"> <li>• Safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.</li> <li>• Share their creations, explaining the process they have used</li> </ul>	<p>N/A</p>	<ul style="list-style-type: none"> <li>• Problem solving by suggesting potential features on a Micro: bit and justifying my ideas</li> <li>• Developing design ideas for a technology pouch</li> <li>• Drawing and manipulating 2D shapes, using computer-aided design, to produce a point-of-sale badge</li> <li>• Using a template when cutting and assembling the pouch</li> <li>• Following a list of design requirements</li> <li>• Selecting and using the appropriate tools and equipment for cutting, joining, shaping and decorating a foam pouch</li> <li>• Applying functional features such as using foam to create soft buttons</li> <li>• Analysing and evaluating an existing product</li> <li>• Identifying the key features of a pouch</li> </ul>	<ul style="list-style-type: none"> <li>• Researching (books, internet) for a particular (user's) animal's needs</li> <li>• Developing design criteria based on research</li> <li>• Generating multiple housing ideas using building bricks</li> <li>• Understanding what a virtual model is and the pros and cons of traditional and CAD modelling</li> <li>• Placing and maneuvering 3D objects, using CAD</li> <li>• Changing the properties of, or combine one or more 3D objects, using CAD</li> <li>• Understanding the functional and aesthetic properties of plastics</li> <li>• Stating an event or fact from the last 100 years of plastic history</li> <li>• Explaining how plastic is affecting planet Earth and suggesting ways to make more sustainable choices</li> </ul>

			<ul style="list-style-type: none"><li>• Identifying key product developments that occurred as a result of the digital revolution</li><li>• Writing a program to control (button press) and/or monitor (sense light) that will initiate a flashing LED algorithm</li><li>• Understanding what a loop is in programming</li><li>• Explaining the basic functionality of my eCharm program</li><li>• Understanding what is meant by 'point of sale display'</li></ul>	<ul style="list-style-type: none"><li>• Describing key developments in thermometer history</li><li>• Programming to monitor the ambient temperature and coding an (audible or visual) alert when the temperature rises above or falls below a specified range</li><li>• Explaining key functions in my program (audible alert, visuals)</li><li>• Explaining how my product would be useful for an animal carer including programmed features</li></ul>
