Times tables:

Please note that by the end of year 3, children should know the 2, 3, 4, 5, 8 and 10 times tables by heart. By the end of year 4, children are expected to know all of the times tables, up to 12 x 12.

Children should also learn division facts related to the times table they are working on. For example, children should know that $5 \times 3 = 15$, so $15 \div 5 = 3$.
